■ Draws attention

Wall washing illuminates with a uniformity of light with no hot spots. This luminaire is perfect to accentuate a large feature wall or large artwork.

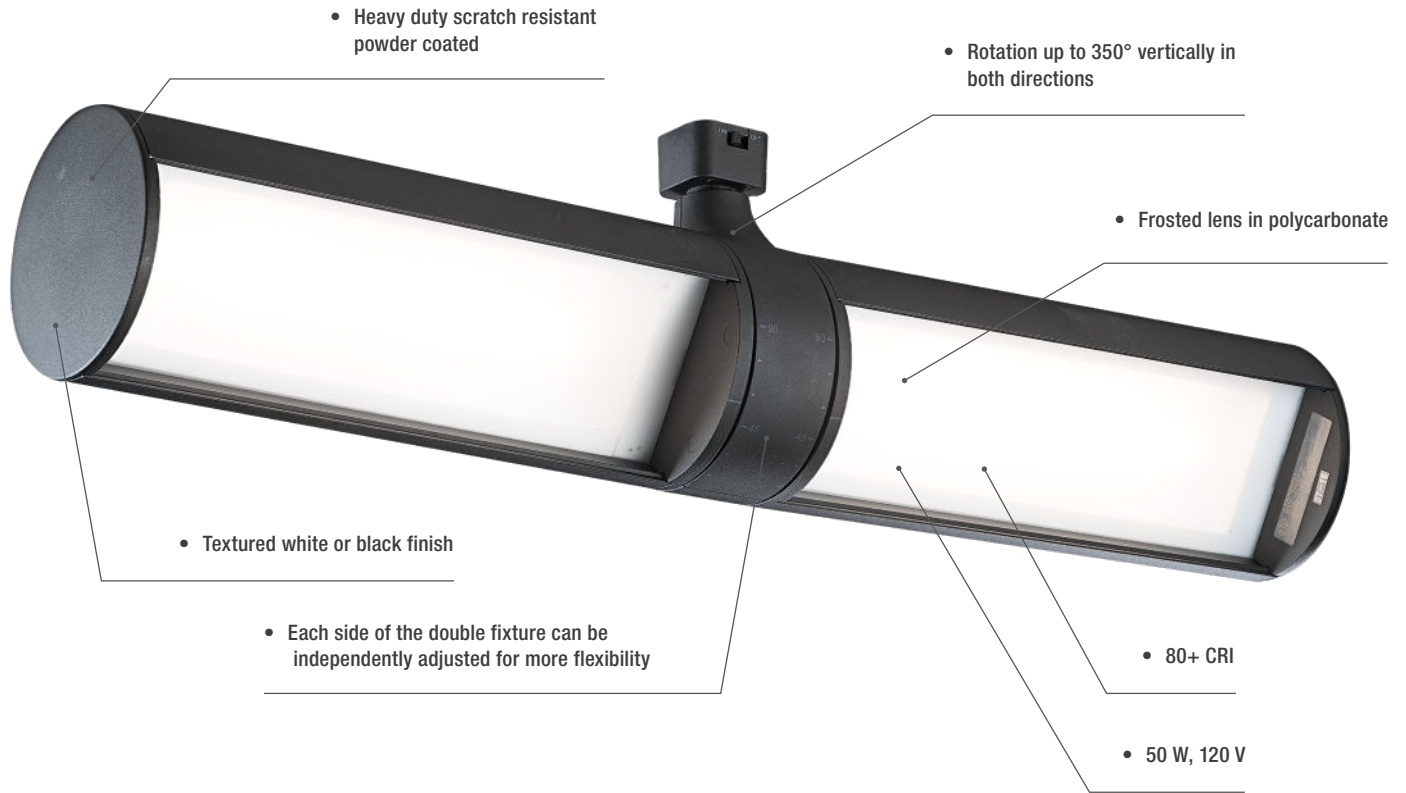

■ Combination with track heads

If wall washing is used for ambient light in a room, you can combine with additional track heads for special purposes such as highlight artwork or decoration.

■ Aiming for the right thing

Precision aiming adjustment with a pivot that allows for rotations up to 350° vertically in both directions. Each side of the double fixture can be independently adjusted for more flexibility.

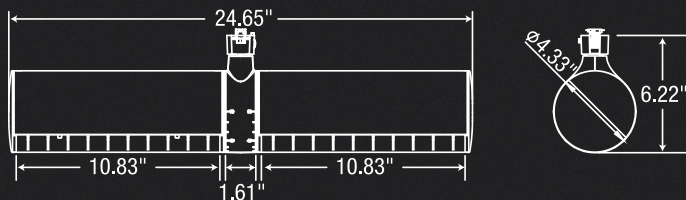

Illuminates a surface with uniform brightness!

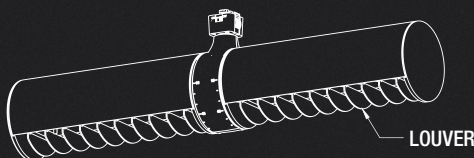

Double LED Wall Washers

50 W

(Up to 4 900 lm)

Optional louvers available as accessories

Compatible accessories

The compatible track accessories allow you to create shapes and designs to personalize the look and achieve the lighting output required.
