

LED BARE WIRE PUCK LIGHTS (12 V)

Enjoy the flexibility of bare wires!

The LED Bare Wire Puck Lights are the perfect solution for your undercabinet lighting needs considering there are no connectors at the end of the wires. Take advantage of the flexibility by running the required wire length between each LED Bare Wire Puck Light.

Features

- Offered in 3 000 K color temperature
- White finish
- Available as a single unit
- Dimmable
- 12 V
- CRI 90 +

These LED Bare Wire Pucks can be used as task, accent or ambient lighting and are perfect for undercabinet applications.
